

THE WALL – Replacement for Sound, Topclass & Vega Lux

Sound, Topclass, Vega Lux models
(all colors): production will end

New model, The Wall (steel):
Available November 2017

THE WALL

The Wall- Harvia Novelty!

The Wall electric heater has been designed by taking the best functions from several different Harvia heaters. That's why we can say that it will replace many of the wall mounted heaters.

Design of the Wall is modern and by that The Wall is updated, modern model of Sound heater.

Illuminated control switches give safety for the user but at the same time makes using very easy! When the light is on in the switches, user knows that the heaters is ON. Compared to Topclass heater, The Wall is update from the top to toe.

Just like phase out model Vega Lux, The Wall is compact but effective model.

The Wall has it own installation rack which makes installation easy and quick. The rack also sets the minimum safety distance between the wall and the heater automatic.

THE WALL – Replacement for Sound, Topclass & Vega Lux

With illuminated switches
The Wall is easy to use
 in a low light sauna room

Technical data
